

AWI SITE CONDITION WAIVER FORM

This Waiver of Liability shall serve as notice that Allegheny Millwork has informed the below named General Contractor that current site conditions do not need the specifications and recommendations issued by the Architectural Woodwork Institute (AWI/AWMAC § 3.2 – Care & Storage). The below named General Contractor has directed Allegheny Millwork to proceed with shipping and/or installation of product, despite these conditions. The below named General Contractor and its subsidiaries hereby waive Allegheny Millwork's liability and assume all responsibility for the influences and resulting effects caused by failure to meet AWI site conditioning requirements, including but not limited to warping, delamination, joint failure, finish cracking, and dimensional change.
